Twinkle Star
International Child Care

✦ PROPOSAL · OCTOBER 2026

TwinkleStar Digital

A new website, a parent app and a complete school portal, built for TwinkleStar International ChildCare in Al Hail North.

🌐 Website | 📱 Parent app | 🏫 School portal | 💳 Online fees

Prepared for TwinkleStar International ChildCare · Al Hail North 2, Seeb, Muscat

✦ WHERE THINGS ARE TODAY

Running a nursery shouldn't mean chasing paper and WhatsApp.

Most nurseries in Muscat run on a mix of tools that don't talk to each other. That costs the team time and leaves parents guessing.

🌐

No website

Parents find TwinkleStar only through listing sites. Enquiries depend on phone calls.

💬

WhatsApp groups

Every child's photos shared with every parent. Important messages get lost.

📋

Paper registers

Attendance, meals and naps written by hand. Nothing reaches parents in real time.

💵

Fees by cash & Excel

Manual invoices, reminders and receipts. Late payments are hard to track.

📉

No clear picture

Attendance, income and children's progress live in different places, or nowhere.

✦ THE SOLUTION

One platform. Everything connected.

A public website, a portal with a login for every role, and mobile-friendly pages in English and Arabic, all sharing the same data.

🌐

Public website

Programmes, curriculum, accreditation, gallery, visit booking and enrolment enquiries. Edited by the office, no developer needed.

🏫

School portal

Six roles (principal, office, accounts, assessment, teachers, parents), each seeing exactly what they need.

📱

Works on every phone

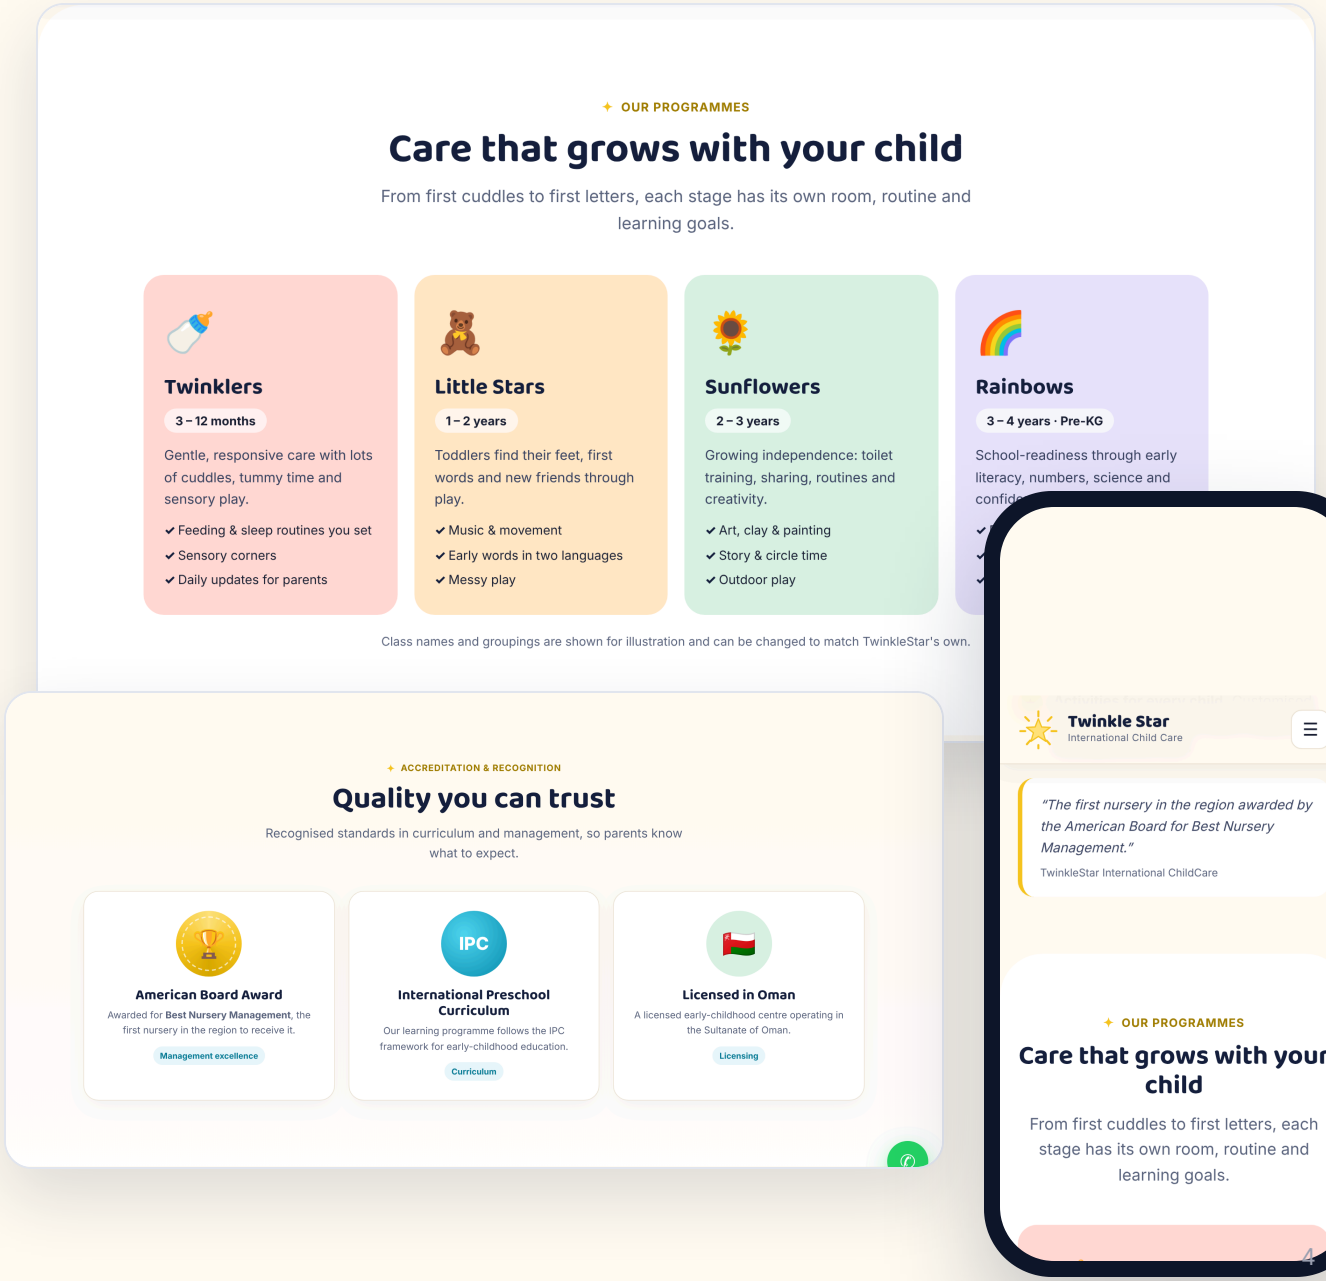

Installs like an app from the browser. Arabic and English, right-to-left ready. No app-store wait.

🌐 Website enquiry → 📝 Admissions pipeline → 🧒 Enrolled child → 🧾 Invoice sent → 💳 Parent pays by card → 📈 Principal dashboard
